Miles driven by an average passenger vehicle

38,351

Trash bags of waste recycled instead of landfilled

1,057

Acres of US forest in one year

DECARBONIZATION

Contract Amount: \$1,551,000

1st Year Guaranteed Energy Savings: \$137,969

1st Year Actual Energy Savings: \$265,055

Completion Year: 2022

PROJECT OVERVIEW

Amanda-Clearcreek Local Schools, located in Fairfield County, Ohio, is a small school district with approximately 1,600 students. Similar to many school districts, Amanda-Clearcreek had concerns with escalating utility expenditures and increasing temperature comfort complaints. Veregy addressed these district-wide challenges through the installation of more efficient, vibrant lighting in the football stadium, new controls to optimize existing equipment and integration of controls with a facility management system. Veregy's collaboration with the District improves comfort of learning environments for students and staff and will generate energy and operational cost savings for years to come.

PROJECT HIGHLIGHTS

- Installation of new non-proprietary Building Automation System
- Integration of Building Automation system with FMX Computerized Maintenance Management System
- Installation of LED Stadium Lighting
