Trash bags of waste recycled instead of landfilled

1,971

Acres of US forest in one year

DECARBONIZATION

PROJECT OVERVIEW

Veregy collaborated with MSD Wayne Township to provide the school corporation with a Guaranteed Energy Savings project including a 2.5MW of ground-mounted solar installation along with two 750kW natural gas generators. Veregy currently utilizes remote monitoring and demand management technology to ensure a productive and stable system, while performing routine maintenance to the solar arrays and generators. With a combination of solar servicing and remote demand management, Veregy is helping MSD Wayne Township stabilize one of the most variable items in its budgets – the cost of energy.

PROJECT HIGHLIGHTS

- Ground Mounted Solar Array
- Natural Gas Generators
- Solar Maintenance and Remote Monitoring
- Guaranteed Savings
- Project Start Date: March 2018
- Project Completion: September 2018
- Annual Guaranteed Energy Savings: \$768,636
- Actual Annual Energy Savings: \$1,120,741
