Miles Driven by an Average Gas-Powered Car

DECARBONIZATION

PROJECT OVERVIEW

The Window Rock Unified School District, located on the Navajo Nation in Arizona, serving a student population of around 1,700 students, primarily from the Diné community. Veregy has been a longtime partner of the district, and is often their first call for plumbing, mechanical, HVAC, controls, and lighting needs. We have fostered this relationship over many years and earned our reputation as an honest and trusted partner. All of the work Veregy has done with the district as been self-performed, with our talented service managers and technicians from Phoenix to ensure the work is done to meet the Window Rock USD energy efficiency goals.

PROJECT HIGHLIGHTS

- New State of the Art Lighting
- HVAC Upgrades/Repairs
- Critical Plumbing
- LED Lighting
- Needle Point Bipolar Ionization
- Controls Upgrades
