## Phase 2

Bloomington, IN

PROJECT SAVINGS

4,700,000

Miles driven by an average passenger vehicle

80,000

Trash bags of waste recycled instead of landfilled

2,200

Acres of US forest in one year

DECARBONIZATION

This MCCSC Phase 2 energy project qualified for the IRA incentive. The Veregy team assisted MCCSC in the filing process to ensure the district received the largest return possible.

**Total IRA Return:**  
\$2,942,215

### PROJECT OVERVIEW

Monroe County Community School Corporation partnered with Veregy for a second phase of their guaranteed energy savings project. This project phase included installation of both roof and ground mounted solar arrays, spanning across three different school buildings in the district, and totaling just over 2.45 megawatts of solar energy. MCCSC also included roof restoration in this phase, in order to make sure each building's roofs were "solar-ready". With this solar installation, Veregy included a preventative maintenance contract for the solar arrays, as well as access to LightLevel Veregy's in-house monitoring software.

### PROJECT HIGHLIGHTS

- Solar Array – Ground & Roof Mount: 2.45MW
- Solar Maintenance Contract
- Remote System Monitoring
- Roof Restoration
- Project Start Date: January 2024
- Project Completion: Spring 2025
- Contract Amount: \$15,028,164
- Guarantee Duration: 20 years
- Annual Savings: \$748,831 (2,763,575 kWh)
